

1. Train staff on all hardware equipment in classrooms including projectors, computers, HDTV, DVD/VCR, wireless slates, and telephones.
2. Train teachers to use the Riverdeep learning management system including curriculum correlation, scope and sequence, and sunshine state standards lesson planning.
3. Train teachers to use the Compass Odyssey learning management system.
4. Train teachers to use Renaissance Place including Accelerated Math, Accelerated Reading, Fluent Reader, Star Reading and Star Math.
5. Work with teachers to perform data analysis using Snapshot.
6. Provide access to SuccessMaker in the classrooms and computer labs.
7. Train teachers to use Scantron. Teachers use Scantron to Pre-test students at the beginning of the year to help provide reading and math diagnostics. Help teachers develop progress monitoring plans using the data obtained from Scantron.
8. Provide access to the Pinnacle Gradebook system. Teachers can access Gradebook from home or the school. Also provide parents access to the parent viewer. Parents use the viewer to track attendance, tardies and grades.
9. Train teachers to use the Read 180 software for intensive reading courses.
