

Out of Field Report

Summer School 2023

Out of the 26 summer teaching positions in the District, 10 (approx. 40%) are classified as out-of-field and reported to the state as such. It is required by law that parents of students in classrooms with out-of-field/non-certified teachers be notified. Therefore, letters are sent home with students. The following are listed as out-of-field or non-certified. Please see the notes on status.

Teacher	Position	Status
